

Keys to Securing Brownfields Funding: Learn How to Access Funding for Brownfields and Environmentally Impacted Properties in Your Community

Whether your organization has received funding or the past or new to grants process, this workshop will focus on how to competitively apply for state and federal grants that will assist with site assessment and cleanup, moving your projects toward the desired redevelopment outcome.

You will hear from US Environmental Protection Agency, California Department of Toxic Substances Control, and State Water Resources Control Board experts about their respective grant guidelines. Topics to be covered include: Applicant and Site Eligibility Criteria; Scoring Criteria; Application Steps; and Success Stories; with a special presentation on Case Studies of successful applications and grantees who have used funding from multiple sources. Additionally, agency representatives will make themselves available after the formal presentations for appointment-only one-on-one sessions for those with specific questions about their particular sites and situation. If you would like to register for a one-on-one session, please check the appropriate box below. These limited sessions will be scheduled on a first come, first serve basis and time slots will assigned during the check-in process.

All workshops will begin with check-in from 8:30 AM to 9:00 AM; presentations will run from 9:00 AM to 12:00 PM. Appointments for one-on-one sessions will begin at 12:00 PM.

To Register:

Complete this registration form and return it as an e-mail attachment to fundingworkshop@dtsc.ca.gov or via fax to (714) 484-5438. You can expect a confirmation e-mail within 2-5 business days.

Early registration ensures attendance at your desired location and ensures that presentation materials will be made available electronically prior to the workshop. Hard copies will not be provided at the sessions. If you have any special needs or require special accommodations, please contact Ian Waters 916-323-7905 or e-mail at iwaters@waterboards.ca.gov
